

County of Bruce Planning & Development Department

Form Two : Consent to Sever Information to Applicants

General

An application for consent under Section 53(2) of the Planning Act is required to create a new lot, modify property boundaries, or establish new easements or rights of way.

You are encouraged to discuss your application with the planner for your municipality, and with the appropriate officials of the local municipality. You may also contact your local Planner by way of the County of Bruce website (www.brucecounty.on.ca) 'Planning Services' section. Staff can provide you with information about your application. In order to avoid delay, you should gather information about your property, and you are encouraged to examine the provisions of official plans and zoning bylaws in force and effect.

Complete Application Required

The Planning Act requires that **complete applications** be filed before the applications for consent/severance can be considered. The requirements for a complete application are defined in the Planning Act, its regulations, in the Bruce County Official Plan and in local municipal official plans. An application may be refused because it is incomplete.

In order to ensure that your application is complete, please complete the **Planning and Development Department - Form One - Property and Applicant Information**. If you are submitting applications for several applications on the same property, you need only submit one completed copy of the Property and Applicant Information Form.

Additional information is required. You should submit this information in the form of an accompanying letter or report. You may need to obtain the assistance of a qualified professional to assist you in completing the application.

Information Required For Applications for Consent/ Severance Applications

Schedule 1 to Ontario Regulation 197/96 lists the information that is to be provided with a complete application for consent. These requirements are summarized below, and together with the completed Form One, will fulfill the requirements for your application. For major or complicated applications, you should consult the Ontario Regulations and the Official Plans that apply directly.

Additional Requirements of Ontario Regulation 535/06 include:

1. The purpose of the proposed transaction (i.e. Creation of a new lot, lot addition, boundary change, easement, charge, lease or correction of title)
2. Whether the land has been the subject of an application for approval of a plan of subdivision, consent, a previous rezoning, or is subject to a Minister's zoning order.
3. Whether the subject land is within an area of land designated under any provincial plan or plans (such as the Niagara Escarpment Plan), whether the requested consent conforms to or does not conflict with those plan or plans.
4. A clear, scalable sketch or, preferably, a survey of the subject lands showing the entire subject parcel, location of buildings and structures, watercourses, wells, septic disposal systems, and other natural or man-made features. The scalable map must also show the proposed consent/severance. **(Please see attached example).**

The Bruce County Official Plan has application requirements that may also apply. These include:

1. Where development may affect an Area of Natural or Scientific Interest (ANSI), a Provincially, Regionally or Locally Significant Wetland, or areas of habitat of Threatened or Endangered Species, the preparation of an Environmental Impact Study may be required, in accordance with Section 4.3 of the County Plan.
2. Where a local or the County Plan permits development on private individual or communal services, a lot servicing plan may be required, and a hydrogeologic report demonstrating the suitability of and impact of the development on groundwater, and a conceptual stormwater management plan, (Section 4.7.5.3), and a storm water management study may be required. (Section 5.3.5.1 (iii),
3. In the Shoreline Development Area, as designated in the County Plan, you may also be required to prepare a storm water management plan, a fisheries

management study, and other studies as outlined in Section 5.3.5.1 of the County Plan.

The Local Municipal Official Plan may have other requirements for applications as well. Please consult with the area planner for more information.

You are asked to deal with these questions in the form of a planning rationale report, prepared by a qualified professional.

Two paper copies and one electronic copy in Word or PDF Format of the reports that accompany the Development Application Report are required. **Any maps or schedules must be accurate, and scalable. The location of all existing and proposed buildings and structures, and the location of all natural and artificial features must be shown.**

One copy of all material accompanying the application must be provided. If possible, electronic copies of the material in Word or PDF format, including all maps and schedules, on CD or other electronic format useable by the County (no floppy disks or diskettes) would be appreciated.

The Process

When a complete application is received, a request for comments is sent to several government agencies; and, the County gives notice of an application to surrounding property owners. Normally, application approval has been delegated to staff of the County. However, if there is a disagreement over an application with the local municipality, or if the recommendation is for refusal, the application will be referred to the County Land Division Committee. Once a decision is made, the decision is circulated, and any interested individual may appeal to the Ontario Municipal Board.

Your local planner can provide more specific details of this process for you.

Information submitted will be made available for examination to any person who requests it. Once you have been notified of the Application File Number information about the application will be put on the Department's website.

An application that is incomplete may be refused for that reason.

Contact Information

The County Planning and Development Department handles the administrative requirements of applications for the local municipalities and the County.

The Department currently has three offices.

The **Peninsula Hub** serves the following local municipalities:

Municipality of Arran Elderslie (former Arran, Elderslie, Tara, Paisley and Chesley)
